

Voter Focus

- Wren Fowler, Product Manager

GIS/Streets and Voter Focus

What does Voter Focus currently support?

- **Street Ranges-** Street Maintenance
- **Geo Elections GIS Interface**
 - Geo Elections interface supports Points
 - “Points” in place (9 counties)
- **Generic GIS Interface**

What are points?

POINTS \neq **Points** \neq *Points*

3 Different Flavors of Points

- Distinct Points
 - Define every point explicitly. A street point for every household
 - 1 Main St, 2 Main St, 3 Main St, etc
 - No ranges
- Geo Points
 - Exceptional Points- Ranges exist with exceptional points
 - 1-100 Main St and 12 Main St is Commercial, No Residence Delivery or in a different precinct
- Proposed Rule Points

Considering moving to Points?

Counties- Things to consider

- **Time**
 - How much time will it take to complete the conversion?
- **Money**
 - Cost for GIS system and VF GIS Interface
- **Staff Resources**
 - Do you have staff who is knowledgeable about Streets/Points?
 - Managing two different systems

Vr Systems- Things to consider

- **Time:**
 - Development, testing, training.
- **Staff Resources:**
 - Do we have staff who is knowledgeable about Streets/Points?
 - Managing three different systems
- **Changes:** Significant software changes will be required. (if Rule change)
 - Geo Interface
 - Generic Interface
 - Voter Focus Software
 - FVRS system
